Reliability Engineering and System Safety **34** (1991) 431–432

CONTENTS OF VOLUME 34

Number 1

A Special Issue on Reliability and Statistical Methods

Editorial 1

RSS Reliability One Day Meeting on Reliability and Statistics, 27 September 1989 5
Introduction by F. R. Farmer

Some Pitfalls in Reliability Data Analysis 7
D. W. NEWTON (UK)

Statistics in Quality and Reliability. Lessons from the Past, and Future Opportunities 23
PATRICK D. T. O'CONNOR (UK)

Applying Proportional Hazards Modelling in Reliability 35
A. BENDELL, D. W. WIGHTMAN & E. V. WALKER (UK)

Weibull Regression Models for Reliability Data 55
RICHARD L. SMITH (UK)

Uncertainties in Reliability Statistics 79
T. R. MOSS (UK)

The Assessment of Software Reliability 91
CHRIS DALE (UK)

Calendar 105

Number 2

Finite Difference Analysis of Reliability Optimization through Sampling Techniques 107
M. METWALLY (Bahrain)

An Expert System Approach for Fault Diagnosis to Cope with Spurious Sensor Signals and Process State Uncertainty 121
QIN ZHANG, D. OKRENT, G. APOSTOLAKIS & S. GUARRO (USA)

Fault Tree Diagnosis Based on Shannon Entropy 143
WANG XIAOZHONG (People's Republic of China)

Reliability Engineering and System Safety (**34**) (1991)—© 1991 Elsevier Science Publishers Ltd, England. Printed in Great Britain

Modeling the Influence of Errors of Commission on Success Probability . . 169
HAROLD S. BLACKMAN, DAVID I. GERTMAN &
HEIDI A. HAHN (USA)

A Unified Methodology for Reliability Assessment of Systems with Active Redundancy 181
STEPHEN M. CARR & GORDON J. SAVAGE (Canada)

Considerations in Establishing Allowed Cumulative Outage Times for Components 221
W. E. VESELY & M. A. AZARM (USA)

Letters to the Editors 235

Calendar 241

Number 3

A Special Issue on Dependent Failure Analysis

Guest Editorial 243

Common Cause Failures: An Analysis Methodology and Examples . . . 249
ALI MOSLEH (USA)

Risk-Significant Functional Dependencies in Pressurized Water Reactors . . 293
MICHAEL V. FRANK & KARL N. FLEMING (USA)

Common Cause Failure Analysis: A Critique and Some Suggestions . . . 309
GARETH W. PARRY (USA)

Some Practical Considerations in Treating Dependencies in PRAs . . . 327
DALE M. RASMUSON (USA)

Considerations of Common Cause Aspects in the Design of Siemens/KWU PWRs 345
R. SCHILLING & P. DÖRRE (FRG)

Experiences from Dependent Failure Analysis in Nordic Countries . . . 355
S. HIRSCHBERG (Sweden)

Qualitative Cause-Defense Matrices: Engineering Tools to Support the Analysis and Prevention of Common Cause Failures. 389
HENRIQUE M. PAULA, DAVID J. CAMPBELL &
DALE M. RASMUSON (USA)

Dependent Failures Developments 417
P. HUMPHREYS & A. M. JENKINS (UK)

Calendar 429
